Involvement in EU projects

• Several members are partners to EU projects within topics like development of transport corridors, shared mobility hubs, automated transport and electrification of leisure boats, and regularly share information on activities and results to the group.

• Group members are also partners to project applications.
The Transport Group has:

• Contributed to the CPMR lobby strategy on the TEN-T revision

• Translated the NSC position paper on the revised TEN-T regulation into specific amendments towards the European Parliament and EU Council.

• Promoted the position paper towards EU institutions and member states at the Connecting Europe Days in Lyon in June 2022
