Annual turnover: abt. 25 bill. NOK/year

Purchasing power: abt. 20 bill. NOK/year

Export rate: Above 80%

- Strongest industrial cluster in Norway

- Competence based
- Significant efficiency and productivity increase
- Energy and environmentally friendly
- World - class

abt. 3300 directly employed investments abt. 20 bill. NOK over last 10 years
GOAL 2040 – 0 CO₂ EMISSION
ONE OF NORWAY’S LEADING INDUSTRIAL PARKS

- 1,5 km² area
- Abt. 80 companies
- 2,500 workers

- 13 bill NOK turnover in 2018
- 85% export rate
- 1,0 bill NOK invested in 2018
- 17 bill NOK invested since 2002
- Process industry
- Chemical industry
- Maintenance services
- Offices and real estate
- Project services
- Engineering
- R&D
- IT

- 1-4 employees: 10%
- 5-9 employees: 4%
- 10-19 employees: 4%
- 20-49 employees: 21%
- 50-99 employees: 14%
- 100-199 employees: 3%
- 200+ employees: 43%
THE LARGEST COMPANIES

- **Yara**
  - Production and research
  - 550 employees
- **Addcon Nordic AS**
  - Complex mineral fertilizer
  - 55 employees
- **Evry**
  - 100 employees
  - IT services
- **REC Solar**
  - Special products based on formic acid salts (de-icing fluid runways, feed supplements etc.)
  - 80 employees
- **Inovyn**
  - 100 employees
  - PVC
- **Bilfinger Industrial Services Norway**
  - 700 employees
  - Maintenance services
  - Engineering and project support
  - Project management and site supervision
  - Logistics and industrial park services
- **Equinor**
  - R & D and multi phase flow rig
  - 180 employees
Research Park

- >400 researchers / highly-skilled staff:
  - Equinor
  - Yara
  - Inovyn
  - Hydro
  - Sintef
  - Sintef Norlab
  - Noah
  - USN
  - OiW Process
- Equinor multi-phase flow rig for testing of hydrocarbon products
- 25,500 m² buildings with offices, laboratories, work-shops and test facilities
- Infrastructure for research activities
HERØYA INDUSTRIAL PARK - INFRASTRUCTURE

EL-GRID:
Total capacity: ca 680 MW
In use: ca 280 MW
Redundancy: ca 400 MW
Annual consumption abt 1 Twh

COOLING WATER:
Capacity: abt 9 m3/sec
Consumption: abt 7-8 m3/sec
HERØYA INDUSTRIEPARK 2020
THANK YOU FOR YOUR ATTENTION
